Certificate II in Electrotechnology (Career Start)

Careers Australia offers school students course options within the Electrotechnology sector.

Key points about the Certificate II in Electrotechnology (Career Start)

The Certificate II in Electrotechnology equips students with the skill and knowledge to:
- Identify and select appropriate materials and equipment,
- participate in environmentally sustainable practices,
- assemble and fabricate electrotechnology components
- perform manual and machine operations,

Key benefits of the Certificate II in Electrotechnology (Career Start)

- Students are provided a thorough understanding of the industry sector which enhances their prospects of entry level employment in apprenticeships, traineeships or general employment in the electrical or related working environment.
- Upon successful completion of the Certificate II in Electrotechnology, students will have a nationally recognised qualification.

Certificate II in Electrotechnology (Career Start) (UEE22011)

Our Certificate II in Electrotechnology course is for you if you want to be engaged in the electrical, refrigeration or air-conditioning industries. You will undertake a range of tasks involving known routines and procedures, and taking responsibility for the quality of work outcomes.

Entry requirements:
- There are no formal entry requirements for this qualification.
- Students will be asked to complete a language, literacy and numeracy evaluation, which is used as a simple diagnostic to determine students who may need further assistance.

Career Opportunities include:
- Electrician – domestic and commercial
- Refrigeration mechanic
- Air conditioning mechanic
- Computer systems technician
- Data communications tradesperson
- Instrumental technician

Course units – (units may be subject to change)
- Apply principles of occupational health and safety in the work environment
- Develop a career plan for the engineering and manufacturing industry
- Undertake a basic engineering project
- Participate in environmentally sustainable work practices
- Organise and communicate information
- Interact with computing technology
- Use hand tools
- Use power tools/hand held operations
- Use engineering workshop machines
- Use electric welding machines
- Use fabrication equipment
- Work in a team
Certificate II in Electrotechnology Career Start (UEE22011)

START DATE
Term One - week commencing 9th Feb 2015

DAY
One day a week – day to be confirmed

TIME
8:45am (9:00am start) to 3:00pm

DURATION
35 Weeks

LOCATION
Careers Australia – Bowen Hills Campus
16-18 Thompson Street, BOWEN HILLS

PERSONAL PROTECTIVE EQUIPMENT (PPE)
PPE will be provided by Careers Australia.
Students are to supply their own steel capped boots

COST
No cost to the student. Funded through VETiS funding

ENROLMENTS
To request an enrolment form, please contact the VET coordinator at school
